
ROUND 2 GUIDELINES

- The development Period is 48 hours long starting from July 9, 2021, 5:00 PM to July 11, 2021. 5:00 PM. Commits before and after the development period would not be considered.
- Commit your project regularly to the repository that you **provided during Idea Submission**.
- This repository will be monitored throughout the development period and checked to understand your workflow.
- In the Readme file, explain in short about your project, along with **instructions to install and run the project on our side**.

Instructions for Video Call

- The video call (google meet) will be scheduled with the judges anytime between the development period. Timing and day will be informed to the team leader through email, before 9 AM.
- Questions related to technologies used, code and work done till the time will be asked.
- All the team members shall be present in the video call.
- Atleast 2-3 members shall be able to present the screen and share the code.
- The judges might suggest a new feature in the project, implementing it will result in extra marks.
